The **Rehired** field contains the date that the retired employee was rehired.

The **Retiree Flag** indicates whether the employee retired from SERS or STRS.

Y - Yes

N - No

It is important that the Retiree flag be correct as those already retired from SERS or STRS are reported differently.

Should this employee be **exempt** from retirement **surcharge**?

Y - Yes, this employee is Surcharge exempt

N - No, this employee is not surcharge exempt

If the employee is retired, has refunded their SERS account, received disability benefits, died before July 1, or is a Re-employed Ohio public retiree, they are exempt from the Surcharge.

The **Retiree deduct** is a subset of the **Deduct total**.

If an employee worked the entire fiscal year as a rehired retiree, the Retiree deduct amount should be the same as the Deduct total.

If an employee worked only part of the fiscal year as a rehired retiree, the Retiree deduct amount will be less than the Deduct total.

The **Retiree gross** is a subset of the **Gross pay**.

If an employee worked the entire fiscal year as a rehired retiree, the Retiree gross should be the same as the Gross pay amount.

If an employee worked only part of the fiscal year as a rehired retiree, the Retiree gross will be less than the Gross pay amount.

The **Retiree board** is a subset of the **Board share**.

If an employee worked the entire fiscal year as a rehired retiree, the Retiree board amount should be the same as the Board share.

If an employee worked only part of the fiscal year as a rehired retiree, the Retiree board amount will be less than the Board share.
